

Dylos Air Quality Monitor Group Buy Order Form

Disclaimer: I (the organizer of the group buy) have no affiliation with Dylos whatsoever.

The following form is for a group buy of The Dylos Air Quality Monitor. More information about this monitor can be found at Dylos' website: <http://www.dylosproducts.com>. The Dylos monitor has proven to be a popular tool amongst woodworkers who wish to monitor the levels of potentially harmful airborne particles in their workshops. Phil Thien organized a group buy last year that was quite successful, but many of us missed out on it (including myself). This is your chance to get one again at a discounted price. The group buy is valid for the month of February only.
